Tells Startling Stories Concerning Holdings of \$100,000 in Devlin Action on Rutland Company Part of Boston Gas Securities.

Thomas W. Lawson, in the current number of "Everybody's Magazine," leaves the subject up again the Boston gas story, describing the process of expanding \$4,500,000 of Boston gas securities "into \$35,000,000 of stocks and bonds, purely for the enrichment of the votaries of the

He also charges H. H. Rogers and others with having sought to fasten upon him the odium of having accepted a \$1,000,000 bribe, and says that by a miracle he has secured documents proving that no part of the money was ever

H. M. Whitney, Mr. Lawson says, had organized the "New-England Gas and Coke Company" with \$17,500,000 bonds and \$17,500,000

This corporation was to sell its bonds to the public for \$17,500,000; was to pay Rogers \$12,-000,000 of the \$17,500,000 for the contents of the bag before described; was to pay Whitney for the Pipe Line charter, some patents and other papers of an equally valuable nature, \$2,000,000, and with the balance, \$3,500,000 was to start business. But before beginning operations or doing anything else it was to borrow at once from the Central Trust Company, of New-York—one of the trust companies then owned by the New-York Life Insurance Company—\$12,-000,000 of the cash President McCall and Vice-President George W. Perkins's insurance company kept on deposit presumably for the purpose of conducting its insurance affairs, and this \$12,000,000 was at once to be paid over to Mr. Rogers. This corporation was to sell its bonds to the

Lawson served notice on Whitney, he says, that he would see to it that the public bought no bonds. Whitney asked him to see Rogers, who made him certain offers, which were refused. Finally, according to Mr. Lawson, after hours of argument, Mr. Rogers said:

I have been carrying this load so long now that I am sick and tired of it. I don't care so much for my own pocket, because I can stand carrying it longer, but William Rockefeller has relied upon me to get him out of it, and it hurts me more with him and the building [26 Broad-way] than I can tell you, that I am stuck in and cannot get out. I suppose all this Boston scan-dal has injured William Rockefeller and myself cal has injured William Rockefeller and myself more with John D. than anything that ever happened before, and I have made up my mind to expect scandal as long as we stay in Boston Gas. What you do to Whitney, after I am free from this affair, Lawson, I don't care, but it does seem as though you might find a way to get at him without grinding William Rockefeller and myself.

"What is the use of denying that this plea from the master of 'Standard Oil' affected me on the sentimental side?-for it did. I compromised," says Mr. Lawson, I said:

Mr. Rogers, I will do this, and only this: I will not say a word to any one until you have your \$12,000,000, and are out, and the others in beyond getting out, but I am not to benefit a dollar from you, from Whitney, nor any one, Then, before the public have parted with a dollar I will yell, and yell so loud that the world will hear, and all that gang will pay the penalty.

The deal went through. Some time later, Lawson says, he sold a large amount of New-England Gas and Coke stock for Mr. Rogers and then told Mr. Whitney, who was buying the stock, that he would sell 3,200 shares more (all that Rogers had left) at \$2 a share over the market price. The offer was accepted. A few days later the accusation of the \$1,000,000 bribe came. A director of the gas and coke company said that he and two associates had been appointed a committee to pay to Lawson \$1,000,-000 of the company's stock in consideration of his abandoning his fight before the legislature, and that one of the three had reported that he

The books of Lawson's brokers were destroyed in a fire about that time, he adds, but a junk dealer, who purchased the wreckage, found and turned over to Mr. Lawson the papers necessary for his studiestic.

TEHUANTEPEC R. R. NEARLY DONE.

Plans Made for a Twenty-five Day Line from New-York to San Francisco.

San Francisco, July 20 .- The Tehuantepec Railroad, from Salina Cruz, on the Pacific side, to Contracoalcos, on the Gulf of Mexico, 180 miles, is about completed, and it is expected that within twelve months harbor and wharfage for the landing of steamers and the transfer of freight will be finished. The American-Hawaiian Steamship Company, now operating a fleet of steamships between San Francisco, Hawaii and New-York through the Strait of Magellan, has concluded a contract with the Tehuantepec road for the operation of connecting steamship lines on both the Pacific and Atlantic sides, and will use the seven vessels now

The company expects to give a service of twentyfive days by the new route, as against the thirty-five or forty days now taken to transport freight between here and New-York by way of Panama and approximately thirty days by the American rail lines.

SAYS SHE LOST IN BUCKET SHOPS.

Woman Wants Receiver for Chicago Grain Exchange and Others.

Chicago, July 20 .- To collect a judgment for \$11,000. said to be lost in speculation in a bucket shop, Mrs. Amanda E. Stichtenoth, of Cincinnati, filed a bill in the United States Circuit Court, asking that a receiver be appointed for the Central Stock and Grain Exchange of Chicago; the Central Stock and Grain Exchange, of Hammond, Ind.; the Hammond Elevator Company, Sidmon McHie, et al. The court appointed a receiver for the Central Stock and Grain Exchange, of Chicago. This corporation, it is said, ceased to exist three years ago. The order of the court does not mention the other carporations named, nor McHie, who is credited with having the principal interest in the defunct corporation.

NEW TRACK FOR BALTIMORE AND OHIO.

The contract for the construction of a little over three miles of new track on the main line of the Baltimore and Ohio Railroad, between Hollofields nd Alberton, a short distance west of Ellicott City, Md., has been awarded to Messrs. Thomas A. Shoemaker & Co., of Pittsburg. This is the continuance maker & Co., of Pittsburg. This is the continuance of the work that has been going on for several years in straightening the alignment and making a low grade freight line from Helay to Washington Junction, upon which more than \$2,000,000 has alteady been spent. This improvement will cost between \$500,000 and \$700,000, and the contractors will begin at once. It will be a standard double track line, including one tunnel 1,000 feet long and another 500 feet long between a point west of Hollo-fields station on the east and Davis station on the west.

JAPANESE BOND ALLOTMENT.

Kuhn, Loeb & Co. and their agents in cities outtide of New-York for receiving subscriptions for the new Japanese 41/2 per cent bond issue have sent out notices of allotment to subscribers. The allotment is as follows: Up to and including £500, in full; subscribers for sums from £600 to £900 get £500; £1,000 to £2,000 get 50 per cent; £2,100 to £2,400 get £1,000; £2,500 to £5,000 get 40 per cent; above £5,000 get from 30 to 12 per cent.

FOUNDRY BOND ISSUE OF \$3,500,000.

The board of directors of the American Steel oundries decided to issue \$3,500,000 6 per cent sinking fund bonds, secured by a first lien on its plants will be first offered ratably to the preferred and mission basis is being formed to take the bonds not subscribed for by the stockholders. Many of the subscribed for by the stockholders, and yot the stockholders, including directors, are members of the syndicate. One million dollars will be used to take up a loan which was recently made to pay a part of the consideration for the Simplex Railway Appliance Company, which cost about \$2,509,009, and which is earning about \$2,509,000 and which is earning about \$50,000 a month. The proceeds of the rest of the issue will be used to pay for new plants and additions which have been paid for from the working capital, and to supply the many with additional working capital.

LAWSON ON ROGERS AGAIN KANSAS CITY BANK FAILS. RECEIVER FOR RAILWAY

Paper Brought Disaster.

Kansas City, July 20 .- The City National Bank failed to open its doors to-day. The bank held of the "Crime of Amaigamated" and takes paper of C. J. Devlin, of Topeka, for over \$100,-000, and the failure is the direct result of the closing of the First National Bank of Topeka, of which Devlin was the principal stockholder. Some time ago the Controller of the Currency

at Washington instructed the officers of the City National Bank to repair its capital. This was done by borrowing from New-York banks. Following the failure of the First National Bank at Topeka, these banks insisted on repayment of their loans, and this caused the officers of the City National to decide on closing.

The only other bank in Kansas City which was caught in the failure of the First National Bank of Topeka was the American National Bank of Kansas City, which is said to hold upward of \$200,000 Devlin paper. It was stated positively to-day by a leading banker that the other Kansas City institutions would not permit this bank to fail. There was no run on other Kansas City banks.

The City National Bank was organized in 1900, and is one of the youngest of the national banking institutions in the city. Its capital is \$300,000, and it has deposits of \$1,476,648. Its officers are Edward Crebo, president; James G. Strean, cashier; John Moore, vice-president, and Charles A. Loomis, second vice-president, The last statement of the City National Bank, issued on May 29, 1905, showed the following:

Resources—Loans and discounts, \$1,036.545.70; drafts, \$639.60; United States bonds and premiums, 637.50; cash and sight exchange, \$685,597.32; \$1,868.739.12. \$1,989.720 12. Liabilities—Capital stock, \$800,000; undivided profits \$3,971 18; circulation, \$210,000; deposits, \$1,476,648 94 total, \$1,989,720 12.

The bank was closed under instructions from the Controller of the Currency. The Controller yesterday, it is stated, informed the officers of the bank that it must take up \$200,000 bad paper immediately or they would not be per-mitted to open to-day. The bank was examined last night by a committee of local bankers, who reported at a meeting early to-day that the affairs of the institution were in such shape that they would not feel justified in extending asthey would not feel justified in extending assistance.

Although the Devlin paper was the chief cause of the failure, it is stated that the knowledge that the bank held other bad paper had led to a gradual withdrawal of deposits recently. The majority of the bank's depositors are persons in medium circumstances, two-thirds of whom live outside Kansas City.
On the board of directors of the City National Bank are Leroy M. Baldwin and George C. War-

ner, of New-York.

PLOT TO SHIP DISEASE.

Steamship Lines Trying to Rush in Trachoma Cases, Says Doctor.

Since June there has been a marked increase in the number of cases of trachoma among immigrants arriving at Ellis Island. From lack of room not all those afflicted can be cared for on the island, and, accordingly, nearly one-third of them are sent to the Long Island College Hos-

Dr. Stoner, chief of the marine hospital corps of physicians at Ellis Island, after a visit to the hospital on Long Island to inspect the trachoma cases there, said yesterday that it seemed to him that the diseased immigrants were held up abroad and kept until a favorable opportunity arose to ship them here in bunches. Last month and this most cases came in troouse from Mediterranean ports. He m bunches. Last month and this most cases came in groups from Mediterranean ports. He said that it looked as though it might be concerted action on the part of the steamship companies to land such immigrants here.

The first crib for the outer retaining wall of the annex to the Ellis island hospital was begun vectoria.

yesterday. This will be for contagious cases. This extension will be 800 feet long and 250 feet wide. The contractors have 250 days to com-

ASSESSMENTS TOO LOW.

Controller Sends Mayor Result of Close Investigation.

When the controversy over the purchase by private sale of the Montauk Theatre property in Brooklyn was at its height, criticism was directed at the Controller's office because the price he had agreed to pay was so largely in excess of the assessed valuation of the property. Replying to the criticisms, Controller Grout declared that in ninety-nine cases out of every hundred the values placed on property in New-York City by the assessors do not represent 75 per cent of the market value of the property.

In support of that contention the Controller had an investigation made, and yesterday Deputy Controller Stevenson forwarded to the Mayor the full report, made by Charles S. Hervey, the auditor of accounts in the Finance Department. In his letter to the Mayor, Mr. Stevenson writes:

The Controller desired me to call your attention especially to the conclusion reached in the report herewith, showing that if the 100 percent requirement of the statutes had been complled with in the preparation of the tax rolls for 1905, the debt incurring power of the city would be the preparation of the city would be the been increased in excess of \$122,000. would have been increased in excess of \$122,000,-000 above the level actually fixed by the present assessed valuation.

In his formal report to the Controller Mr. Hervey goes into minutest details and shows the result of his examination of the conveyances of 470 parcels in Manhattan; 96 parcels in The Bronx and 205 parcels in Brooklyn. The result

Manhattan	cels, Consideration. 470 \$21,015,729 96 2,453,907 205 1,908,757	Assessed valuation, 1905. \$16,819,800 1,709,100 1,516,050	Per cent 77.6 69.6 79.4
Totals	771 \$25,278,395	\$19,544,959	77.1
Mr Harvey	refers to a some	what simila	ir re

Mr. Hervey refers to a somewhat similar re-port he made in 1902, and makes little of the judgment of the assessors in these words:

The eccentricities of assessments in the report for 1905 are similar to those found in the report for 1905 are similar to those found in the examination of 1902. The assessments vary from 5.38 per cent to 164.44 per cent in Manhattan, from 34.54 per cent to 140 per cent in Brooklyn, and from 6 to 26 per cent in The Bronx.

HIGH PRICE OF MEAT IN GERMANY.

Renewed Agitation to Remove Prohibition of Importation of Live Cattle.

Berlin, July 20 .- The price of meat has risen in Germany from 20 to 25 per cent in the last six months, so that now prices are higher by 30 to 35 per months, so that now prices are higher by 30 to 35 per cent than in the neighboring Continental states. The prices outside of Germany usually are 10 to 15 per cent lower. Popular appeals directed by the organized meat dealers are being made to the government both here and in the provinces to raise the prohibition against the importation of live cattle. Six public meetings in this connection were held at Cologne last night. The Butchers' Association of Berlin is planning a number of agitation assemblages. The prices of meat supplied by the retailers to-day, allowing for differences in weights and money, were: Filet of beef, 42 cents a pound; boiling beef, 27 cents; pork, 31½ cents; veal, 21½ cents.

boiling beef, 27 cents; pork, 31½ cents; veal, 21½ cents.

The agitation for cheaner meat, by abolishing the exclusion laws, recurs at intervals. These laws are based, as in the case of American canned meats, on sanitary grounds. But the contention is constantly advanced that the sanitary regulations are made unnecessarily severe, in order to prohibit cattle and meat imports in the interest of the German farmer. The "Deutsche Tages-Zeitung," the principal agrarian organ, has a leading article in nearly every issue affirming that Germany can and ought to raise all the cattle she consumes, and that, in fact, the rise in the prices of meat is due to the buschers' associations, to fine meat shops and to increased rents. The question for the moment engages general public attention.

Merchants' Trust Affairs.

Burlington, Vt., July 20.-The appointment of David Fox as receiver for the Rutland Street Railway Company, of Rutland, was made today in this city, by Judge Hoyt H. Wheeler, of the United States Circuit Court. Mr. Fox is general manager of the company, and also of the People's Gaslight Company and the Chittenden Power Company of Rutland. To-day's appointment was made as the result of the petition filed with the court here yesterday by Douglas Robinson, of New-York, receiver of the Merchants' Trust Company of New-York, asking for the naming of a receiver for the street railway company.

Rutland, Vt., July 20.—David Fox, general manager of the Rutland Street Railway Company, the People's Gaslight Company and the Chittenden Power Company, all of this city, stated to-day that the application of Douglas Robinson, receiver of the Merchants' Trust Company of New-York, for a receiver for the street railway company, in the United States District Court, at Burlington, yesterday, was made chiefly to protect the interests of the company which he represented. The street railway property, Mr. Fox said, is proving profitable, and it has been understood that investors have been giving it some attention, with a view of possible purchase. To prevent such a transaction, which might not be for the advantage of the trust company. Mr. Pachicard deviated to of the trust company, Mr. Robinson decided to ask for a receiver

At the meeting yesterday in New-York of the newly elected directors of the Hudson Valley Rail-way Company Nicholas Biddle and Charles T. Coley, associated with Douglas Robinson, one of the receivers of the Merchants' Trust Company, were added to the board. Mr. Robinson and Presi-dent Bannard and Vice-President King of the New-York Trust Company, which institution is correceiver with Mr. Robinson of the Merchants' Trust Company, were elected directors of the Hudson Valley Railway Company on Wednesday, when Dr. J. P. Munn also became a director. The executive committee now consists of John W. Herbert, chairman: A. B. Colvin, George A. Helme, William G. Bumstead and Dr. Munn.

BOMB SENT TO BANKER.

Clumsy Infernal Machine Might Have Blinded Opener.

Edward Wassermann, of the firm of Wassermann Brothers, bankers, of No. 42 Broadway, received through the mails yesterday an infernal machine, which, had it been opened as the sender had intended, might have injured

The infernal machine was wrapped in brown paper and addressed to Mr. Wassermann personally. The parcel, when opened in the customers' room by the chief clerk, after Mr. Wassermann's arrival at the office, was found to contain an oblong box of pasteboard, with black cloth cover. It was four and a half inches long, two inches deep and two inches wide. At either end was an opening, from which protruded a short bit of string. Written over the opening were the words "Hand camera," while beneath them were the inscriptions "It is all in the lens" and "Pull here." On the box was also written "Thomas Lawson, Boston, Mass."

Picking up the box the clerk tilted one end and was startled to see a black substance, resembling gunpowder, run out from the hole from which the string protruded. The clerk hastly but carefully laid down the box, and the customers who had been interested observers of the opening of the package, promptly left the room. A detective was summoned, who took the box to the Bureau of Combustibles. There Inspector Murray found the inside of the black box partly filled with a handful of gunpowder and powdered charcoal, mixed in about powder and powdered charcoal, mixed in about equal proportions. Eight parior matches and a bit of sandpaper were so arranged that if the string at either end were to be pulled the matches would strike the sandpaper and become ignited. The whole combination formed a bomb of sufficient explosive force to have blinded the opener had he held it close to his face while pulling one of the strings.

Mr. Wassermann says he cannot imagine who the sender can be, as he is not aware that he

the sender can be, as he is not aware that he has any enemies and doesn't think he numbers such a fool among his joke playing friends. The box was mailed at one of the Manhattan postoffice sub-stations and bore one one cent and two five cent stamps.

BLACK RUST SCARE.

Damage to Wheat Crop in Northwest Makes Pit Frantic. Chicago, July 20.—The alleged confirmation of

the prevalence of black rust in the wheat fields of the Northwest sent the price of September wheat whirling up to 88 cents here to-day. The advance was 314 cents a bushel compared with yesterday's closing quotations.

The bulge was accompanied by scenes of much excitement in the wheat pit, shorts frantically jostling each other in attempts to secure the coveted grain. Telegrams from Minneapolis and Duluth detailing damage to the wheat crop in South Dakota by the dreaded blight were the immediate cause of the excitement.

A MORTGAGE TAX RULING.

Receipts Increasing-Most Payments Made Under Protest.

Another ruling as to the meaning of one of the provisions of the Mortgage Tax law has been received by Register Ronner from the State Board of Tax Commissioners. It is that a mortgage extension which increases by its terms the amount se-cured by the mortgage and also the rate of interest is subject to the mortgage tax. Such a mortgage is therefore considered a new one.

"The sum of the mortgages being recorded each day is growing steadily," said Register Ronner yesterday, "and consequently the amount received each day as taxes from the recording of new mortgages is now much larger."

Deputy Register Sherman said yesterday that in nearly every case in which a tax had been placed on a mortgage it had been paid under protest. 'On Wednesday there was offered for record a \$1,000,000 mortgage," he added, "from the New-York Life Insurance Company. The tax of \$5,000 was Life Insurance Company. The tax of \$5,000 was paid under protest." The mortgage was obtained by the Broadway and New Street Realty Company, a new corporation, from the life insurance company on a parcel at the southwest corner of Broadway and Exchange Alley. It is the largest mortgage recorded since the new law went into effect. The premises are No. 44 to 50 Broadway, inclusive. A twenty-five story office building may be erected on the site in the near future. No. 50 Broadway is the Tower Building, the first skyscraper of steel construction erected in this city. The combined parcels have a frontage of \$1.9 feet in Broadway and of 79.5 feet in New-st.

PETITIONS IN BANKRUPTCY.

The following petitions in bankruptcy were filed yesterday with the clerk of the United States Dis-

Jacob A. Ondrak, women's tailor, No. 425 5th-ave.; llabilities, \$5,365; assets, \$16,210. The principal creditors are Carrie Lathrop, Westchester County, N. Y. \$10,000; Caroline C. Ondrak, No. 425 5th-ave., \$10,000, and Windsor Trust Company, 47th-st. and 5th-ave., \$2.462.

Schedules in bankruptcy filed by Rubin & Alexander Gordon show debts of \$1,140, with no assets. The principal creditor is the Star Neckwear Company, No. 122 Orchard-st., \$339.

FIRST BALE OF GEORGIA COTTON. Savannah, July 20.-The first bale of Georgia cotton of the present season's growth was sold at Albany to-day for 23 cents a pound. The bale will be shipped to this city and sold by auction to-morrow at the Cotton Exchange.

BOARD AND ROOMS.
